

TTS MAKER

DESCRIPTION¹

TTSMaker is an American platform that converts written text into audio using AI speech synthesis. It supports multiple languages and different voices.

FEATURES¹

- Multilingual speech synthesis: generate voices in multiple languages and accents.
- Voice customization: choose different tones and reading speeds to fit pedagogical needs.
- Audio file download: export generated voices in various audio formats for easy reuse.

EXAMPLE OF CLASSROOM USE²

A language teacher uses TTSMaker to generate audio files with different voices and accents to train students in listening comprehension.
