

DALL-E

DESCRIPTION¹

DALL-E, software developed by the American company OpenAI, can create images and illustrations from descriptive text.

FEATURES¹

- Text-to-image generation: Creates unique visuals based on provided descriptions.
- Style customization: Allows adaptation of creations to various artistic styles (realistic, abstract, cartoon, etc.).
- Image editing and modification: Enables adding or modifying elements on an existing image.

EXAMPLE OF USE²

An art teacher uses DALL-E 3 to introduce and train students in the use of generative artificial intelligence.
